Bridal Express Weddings will design custom floral bouquets and arrangements along with your other bridal flower needs which will add beauty and distinction to your wedding. We use only the freshest flowers available for your floral designs.

One feature that sets us apart from other photography studios is our ability to listen. Your photographer is one of the few professionals that you will see from start to finish on your wedding day. Your photographer should be someone that hears your ideas and understands the emotions that you will be experiencing.

## Photography

When Bridal Express Weddings provides the floral decorations for a wedding or special event that is the question that is most often asked. With over 12 years of experience in designing and setting up all types of environments (hotels, churches, halls, outdoor tents, parks, houses etc...) we know what works and what doesn't.

Bridal Express Weddings captures the rainbow of emotions present in every wedding, and the pride and love surrounding every family. Our style of photography is both traditional and photo-journalistic in style.
